Please tell me Revenue of the Financial Year to me

The revenue for the financial year ended March 31, 2025, is 30,301.63. The revenue for the financial year ended March 31, 2024, is 37,550.91.

Sources

tell me the percentage of the revenue coming from different products?

I don't have that information in the document.

Sources

pllt of the revenue please tell me that

The operations of the Company are limited to one segment, which is pharmaceuticals products. Revenue from contracts with customers is from the sale of manufactured goods.

Sources

elaborate more on pharmaceutical products?

The global focus in pharmaceuticals is shifting towards complex generics, high-potency APIs, and specialty products, moving beyond commoditized generics. Our R&D strategy aligns with this by increasing investment in sustained-release, oncology, and value-added generics to move up the value chain and tap into higher-margin segments.

For pharmaceutical products, we provide:

- Clear instructions describing the product's active ingredients, cautions for consumption or usage, possible side effects, and guidelines for storage and disposal.
- A material safety data sheet for each product, offering detailed information on handling and storage.
- A product leaflet with every pack, containing essential information about drug administration, compositions, and potential side effects, designed to be self-explanatory and easy to understand.
